

Juan Carlos Gadea Brenes

Technical Lead | Solutions Architect | Full Stack, Data & Cloud Engineer | Scalable Architectures & Data Analytics • Rome, Lacio, Italy • [Linkedin](#) • +393513183823 • jcgambeta89@gmail.com

[Portfolio](#) - [Github](#)

Cloud Solutions Architect & Technical Lead with over 5 years of experience designing mission-critical ecosystems and leading complex migrations across cloud, on-premise, and hybrid environments. Distinguished by a multidisciplinary technical profile that encompasses roles as a Full-Stack Developer (C# .NET 8, React, Next.js, Angular, Node.js), DevOps Engineer, and Data Analyst. Proven track record of spearheading Azure data architectures (Medallion architecture: Bronze-Silver-Gold) and advanced analytics platforms (Python, Power BI) for highly regulated sectors, including aviation, banking, government, and telecommunications. My approach combines technical excellence and operational cost optimization with the strategic vision required to translate complex business requirements into scalable solutions. Expert in managing executive stakeholders, overseeing bidding processes, and directing Agile work cells (Scrum/Kanban) to ensure the delivery of high-impact software.

PROFESSIONAL EXPERIENCE

Technical Lead & Solutions Architect | Software Application Developer NEXUS CONSULTORÍA & SERVICIOS | Remote | Nov 2025 - Present

- **Cloud & Full-Stack Architecture:** Lead the design and development of cloud-native systems and the modernization of legacy applications, eliminating on-premise dependencies. Implement high-availability architectures and event-driven solutions for critical transactions using .NET 8, Blazor WebAssembly, Azure Service Bus, and Worker Services. Comprehensive infrastructure management in Azure (App Service, Azure SQL, VPN Gateway, Entra ID) ensuring security and cost optimization.
- **Data Architecture & Analytics:** Design and implementation of scalable data ecosystems under the Medallion architecture (Bronze–Silver–Gold) to enhance data quality and analytical traceability. Development of Business Intelligence solutions and decision-support tools using Python (Streamlit), Power BI, and SQL Server.
- **Technical Leadership & Strategic Consulting:** Direct Agile development squads (Scrum). End-to-end project and bid management, including the creation of SOWs, roadmaps, infrastructure sizing, and stakeholder management in highly regulated sectors (banking, government, aviation).

Key Projects:

- **Electoral Management System (Costa Rica):** End-to-end development of a platform to manage and control the territorial and electoral teams of a political party. Architecture built with C# .NET and Blazor, managed via Azure DevOps pipelines, and enhanced by the development of a BI Dashboard for monitoring key metrics.
- **Aviation Sector (La Costeña):** Comprehensive modernization and Azure migration of the Pegasus system, implementing a new web architecture with Blazor WebAssembly and .NET 8.
- **DICEGSA (Retail/Logistics):** Deployment of a complete Data Lake (Medallion architecture) orchestrating over 148 SSIS packages to transform 70+ sales tables, drastically reducing analytical cycle times for the BI team.
- **Ministry of Economy and Finance (MEF Panama):** End-to-end delivery of a Budgetary BI platform. Integration of a star schema in SQL Server, complex DAX metrics, DirectQuery, and an HTML landing page with role-based access control.
- **Central Bank of Nicaragua (BCN):** Architectural proposal and sizing of the SNCV system across 5 environments (Development to Production), including risk classification by support tier to ensure business continuity.

Technology Solutions & Analytics Specialist InVICTA Business Partners | Remote | Aug 2025 - Jan 2026

- **Business Analysis & Process Improvement:** Strategic evaluation and implementation of technological solutions aimed at optimizing financial performance. Identification of bottlenecks and design of data-driven workflows to strengthen the operational infrastructure.
- **Data Visualization:** Design and implementation of interactive dashboards tracking critical KPIs, enabling the measurement of effectiveness and ROI for implemented solutions, while facilitating strategic decision-making.
- **Marketing Tech & Digital Analytics:** Management of web development and maintenance using CMS (WordPress, Wix Studio). Execution of Technical SEO strategies and advanced configuration of the analytics stack, integrating Google Analytics, Google Search Console, Google Tag Manager (GTM), and Meta Pixel to ensure the accurate tracking of events and conversions.

Full Stack Architect (SaaS) & Data Analyst Freelance / Independent Professional | Remote | Feb 2025 - Present

- **Full-Stack Development & SaaS Architecture:** Design and delivery of comprehensive, scalable, and efficient web solutions (e-commerce platforms, landing pages, and an ERP system currently in development) for international clients. Mastery of a modern stack: Frontend (React, Next.js, Angular, TypeScript, Tailwind CSS) and Backend (Node.js, Express, REST APIs, SQL/PostgreSQL databases, Supabase, and Firebase).
- **DevOps, CI/CD & Security:** Automation of the software lifecycle through CI/CD pipelines using GitHub Actions deploying to Vercel and Google Cloud (Cloud Run, Cloud Build). Implementation of containerized microservices with Docker, maintenance of SSISDB deployments, and execution of security audits (resolution of critical path-matching bugs in Firebase Cloud Storage).
- **Data Science & Analytics:** Application of advanced data analysis using Python (Pandas, NumPy, Matplotlib, Seaborn) and Power BI to transform data into strategic insights and support complex decision-making.

Featured SaaS Product:

- **MiBoletoni (PaaS/SaaS):** End-to-end architecture and deployment on Google Cloud of a digital ticketing platform. Design of critical features including payment gateway integration (Stripe/Fygaro), offline-first access validation schemas, multi-role financial administration dashboards, access control, and authentication management.

Systems Analyst | Project Analyst | Software Developer Claro Nicaragua | Digital Transformation | May 2022 - Jan 2025

- **Digital Transformation & Oracle Development:** Technical leadership in the creation and deployment of enterprise applications using Oracle SQL and Oracle APEX, successfully automating critical operational processes for the Digital Transformation division.
- **Comprehensive SDLC Management & Quality Control:** Full control over the software development lifecycle. Responsible for designing architecture diagrams, creating standardized technical documentation in Confluence, and exhaustively supervising testing phases (SIT, UAT, and QA) to ensure product viability and quality.
- **Agile Methodologies & Strategic Alignment:** Coordination of cross-functional and interdepartmental teams operating under Scrum and Kanban frameworks using Jira. Served as a key technical liaison, efficiently translating business unit requirements into clear deliverables for IT teams.

Software Programmer (Oracle & PL/SQL) Seguros Iniser | Managua, Nicaragua | Jul 2018 - Jun 2019

- **Core Development:** Evolutionary maintenance and development of information systems for the insurance sector using PL/SQL, Oracle Forms, and Oracle Reports.
- **Data Management:** Execution of advanced queries and administration of large volumes of transactional data, ensuring data integrity, security, and adherence to business logic.

Insurance Underwriting Analyst & Data Entry Seguros Iniser | Managua, Nicaragua | June 2017 - July 2018

- **Data Analysis:** Managed and analyzed insurance policies, operating specialized underwriting systems and training personnel on GPS technology for agricultural policies.

Technical Operations Assistant RS Seguridad Digital Internacional | Managua, Nicaragua | March 2017 - May 2017

- **Support & Infrastructure:** Performed hardware maintenance, managed CCTV systems, and provided on-site/remote technical support to ensure retail operational continuity.

Education

- B.S. in Systems Engineering | National University of Engineering (UNI-IES) | Nicaragua | 2010 – 2016 (Completed)
- Business Administration (Years 1-3) | Central American University (UCA) | Nicaragua | 2007 – 2010

Technical Skills

- **Architecture & Cloud:** Azure (App Service, SQL DB, Service Bus, VPN Gateway, Entra ID) · AWS (EC2, S3, RDS) · Google Cloud (Cloud Run, Cloud Build) · Medallion Architecture (Bronze–Silver–Gold) · SaaS Architecture & Microservices · Event-Driven Patterns.
- **Backend Development & Languages:** C# (.NET 8 / ASP.NET Core) · Python · TypeScript · JavaScript (ES6+) · Node.js · Express · PL/SQL · Oracle APEX.
- **Frontend Development & UI:** React · Next.js · Angular · Astro · Blazor WebAssembly · Razor Pages · Tailwind CSS · Bootstrap · HTML5/CSS3.
- **Data & Analytics:** Power BI · Streamlit · Python (Pandas, NumPy, Statsmodels, Matplotlib, Seaborn) · SQL Server (SSIS, SSISDB, Agent) · PostgreSQL · Oracle DB · MongoDB · Supabase · Firebase · Google Analytics · GTM.
- **DevOps & Infrastructure:** Docker · Terraform (IaC) · GitHub Actions (CI/CD) · Vercel.
- **Management & Methodologies:** Scrum · Kanban · Jira · Confluence · Stakeholder Management · Software Development Life Cycle (SDLC) · SOW & Bid Preparation · Design Patterns (Singleton, Repository, Factory).

Certifications & Relevant Coursework

Web & Frontend Development

- AI Development Fundamentals: From Zero to Production – **BIG School (2026)**
- React in Action: From Zero to Expert in Front-End Development – **Desafío Latam (2025)**
- Professional React Course – **Código Facilito (2025)**
- Responsive Web Design (HTML, CSS, Flexbox, Grid) – **freeCodeCamp (2022)**
- Professional JavaScript Course & Consuming APIs with Fetch – **Código Facilito (2025)**

Cloud & DevOps

- Developing Solutions for Microsoft Azure – **Netec (Microsoft Gold Partner) (2025)**
- Terraform Specialist: Infrastructure as Code in AWS (2023)
- GitHub Actions Bootcamp – **Código Facilito (2025)**
- Multicloud Fundamentals Certificate – **Braintcamp (2024)**
- AWS Discovery Day: Data Analytics on AWS – **Net4Skills (2025)**

Project Management & Agile Methodologies

- Foundations of Project Management – **Google / Coursera (2024)**
- Project Management Foundations – **LinkedIn Learning / PMI (2025)**
- Mastering JIRA for Agile Teams – **LinkedIn Learning (2025)**
- CoderCamp Employability Program – **CoderHouse (2025)**

Data Science & SQL

- Data Engineering Bootcamp in Microsoft Fabric – **Código Facilito (2026)**
- Mastering SQL for Data Analysis: Extraction, Transformation & Optimization – **Desafío Latam (2025)**
- Introduction to Data Analysis with Python – **Desafío Latam / Código Facilito (2025)**
- Power BI for Beginners – **Desafío Latam (2025)**
- Professional Database Course – **Código Facilito (2025)**

AI & Specialized Technical Training

- Exploring the Potential of Generative AI – **Alura Latam (2025)**
- Cisco IT Essentials: Technical Support & Operating Systems (2017)
- Professional Networking Foundations – **LinkedIn Learning (2025)**
- Introduction to GPON Networks – **Claro Nicaragua (2023)**

Soft Skills

- **Technical Leadership:** Team mentoring and strategic stakeholder management.
- **Business Acumen:** Ability to translate complex business requirements into scalable technical solutions.
- **Agile Governance:** Strong experience in the Software Development Life Cycle (SDLC) under Agile frameworks.
- **Problem Solving:** Analytical approach to resolving complex challenges in critical environments.

Languages

- **Spanish:** Native
- **English:** B2 (Upper-Intermediate - Full Professional Proficiency)
- **Italian:** B1 (Intermediate - Actively Learning)
